I think we should spend our time and focus on Scrub A Dub due to SOL concerns and San Jacinto has some work that needs to be done as well. I have no problem reviewing the documents, but didn't want to shift our focus away from other time-sensitive Sites.

No, Amy has not yet reviewed the 104(e) responses or the corporate docs for Delta?

Amy has suggested that we hold off spending time on this site until a RPM is assigned to the Site.

Hi Bob,
Has Amy reviewed the 104e's and corporate docs for Delta? Does she have any issues or concerns?
Thanks.
